What was good about this unit?

| Comment |
| --- |
| The lecture was responsive and provided lots of materials. The R assignment was good for building practical coding skills |
| The professor is very patient in giving lectures and the notes are very detailed. |
| The teaching speed is good and the materials are clear and easy to check. And the Professor will post announcements before and after class. |
| it provide detailed learning materials that is very important for my preview and review |
| The blackboard writing is clear; there are tutorial classes; and there is a replay function for easy review. |
| friendly teacher |

What could be improved about this unit?

| Comment |
| --- |
| Exam style questions during lectures.

Sometimes a lot of time was spent explaining relatively easy topics, while more difficult concepts were often explained in a rush. |
| Please provide us with more guidance on practical exercises. |
| I think everything is good |
| Perfect |
| teacher's accent |

What could we do to better support you with your assessments?

Comment
More mock exams to practice. Sometimes it was unclear which derivations were relevant and worth memorising and which ones were optional
everything is good
Everything is good
